Carrera

Designer: Albert Salman

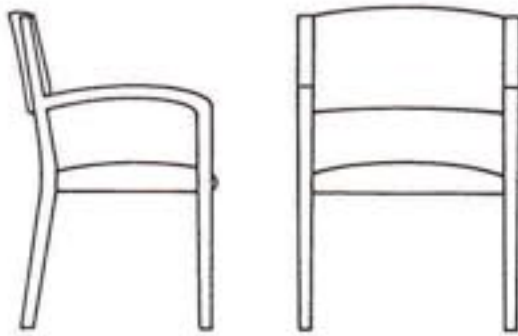

Carrera.....solid hardwood seating with deep cushioned sitting comfort. The arm chair is available in both full and open back models. The group also includes an open back armless chair with leg rail and center stretcher reinforcements.

Carrera seating features fully assembled one piece frames, for extra strength and stability. Solid Maple arms and legs are doweled, glued and corner blocked to hardwood interior frames. The exposed hardwood goes through a complete nine step finishing process.

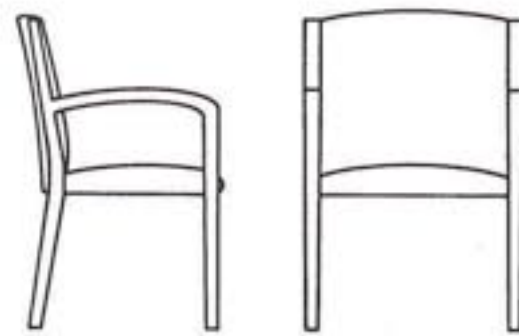

The free standing chair frame next has a flexible spring web seat base installed. Dacron, polyester and high density foams are then applied before final upholstery. The finished product is a well tailored soft sitting piece without dowel or screw plugs, seams or welts.

Carrera can be specified in endless combinations of EOC textiles, vinyl, leathers and wood finishes. Here's affordable seating you won't want to pass up!

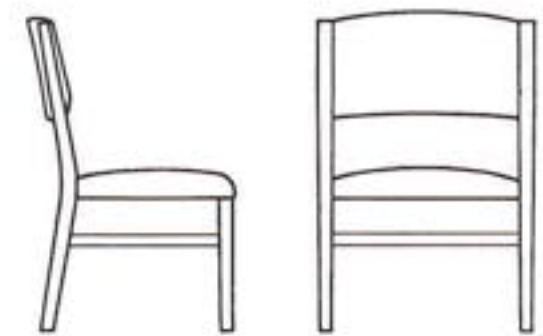

Illustrated on front: Model 740 open back arm chair in #41 Cherry and model 741 full back in #33 Natural Maple. Both are upholstered in Optica Aurora.

740 Arm Chair
