

covington^{medical}_{TM} lounging

... "country club" comfort and styling configured especially for medical applications.

covington^{medical}_{TM} lounging

Covington^{medical} Lounging is a classic reprise reinterpreted into a family of seating for medical applications. It is available in two styles: open frame and fully upholstered to the floor. Both are easily reconfigurable so that visitors and family may gather into the groupings and personal distances that befit their emotional and privacy needs. A large family of tables and planters complement the seating.

Special features include an optional clean-out opening along the rear of the seat, a genuine rock "hard" maple frame either exposed or hidden and high-density HR foam cushion construction. Covington is CA 117 compliant and can also be ordered to meet the special requirements

of CA 133. Other options include:

- Expanded seat widths for ADA compliance
- Caster base (801 model)
- A clean-out opening along the rear of the seat.
- An unlimited variety of factory-standard specialty healthcare and COM textile and vinyl coverings.
- A large variety of factory-standard and custom-matched wood and polyurethane finishes.

Please refer to the Covington^{medical} Lounging price list for details and specifications.
