

DARLA

DARLA

Darla's comfort, durable construction and fresh styling make it a wonderful multifunction chair. It is now available in both deep cushioned upholstered and polypropylene seat and back models. Both are strong, light in weight and available in arm and armless versions. The upholstered models have protective under seat and outer back shells. The

polypropylene models are available in seven colors. The comfortable urethane armrests can be easily added or removed in the field for special ganged or free standing seating arrangements. Darla chairs can easily stack ten to twelve units high on a tilt dolly. Arm and armless models can stack together.
