

26-UB Management/Conference Chair

This is the lower back version of the model 28-UB shown on the opposite page. The design, construction and operational features are identical.

The 26-UB provides the roominess, comfort and support that are so important in management and conferencing applications. Shown in #43303 natural leather with #40 natural cherry hardwood finish.

28-UB Executive Chair

Here is luxury sitting comfort, thanks to this chair's body contoured inner shells and molded multi-density foam construction. The special multi-function control provides an infinite range of seat and back angles, tension and swivel/tilt adjustments.

The arms and base are of matching solid hardwood with a beautiful inset upholstered wrap capping the arm loop. Options include a user friendly adjustable height back and chrome hooded casters (shown).

The chair shown is upholstered in #43303 natural leather with a #40 natural cherry hardwood finish.

Executive Suites

The **Executive Suites** seating collection sets new corporate standards both in the office and conference room. Each chair is styled and engineered for comfort, strength and roominess. The wide, slim profiled arms and interior seats and backs are of custom molded laminated hardwoods. The multi-function controls allow for separate seat and back angle, height and tension adjustments. Chairs are available in all standard wood finishes. Options include a user friendly incremental back height adjustment mechanism and chrome hooded casters (shown).
