

# LORI

# LORI

The sculpted wood features and affordable pricing of the Lori Chair add richness even to high soil areas like exam rooms and lunch areas. Special features include genuine solid hardwood contoured seats and backs supported on elliptically-shaped tubular steel frames. The wooden back, arms and seat are field replaceable. Lori chairs stack four units high without the need of a tilt dolly.

Options include:

- Arm and armless versions.
- Factory-standard or custom-matched wood finishes.
- Upholstered seats in factory-standard or COM/COV coverings.
- Metal frames in factory standard or custom powder-coatings.
- All (non-upholstered) product is inherently CA 133 compliant.
