MARVEL

2030 SERIES FULL RECLINER CHAIR

This feature loaded recliner chair system raises the bar on quality, durability, safety and comfort. Available with or without casters, it features steel reinforced soft urethane foam arms for easy access and egress. The optional caster base model includes a protective solid hardwood base with a soft radius edge and choice of finishes. The richly tailored upholstery features comfort cushioned seat and back construction and protective padded side panels. Marvel's space saving design requires only 6.8 sq. ft. of floor area (12.9 sq. ft. fully extended).
