MARVEL

2040 SWIVEL/TILT RECLINER CHAIR

Healthcare Professionals agree that motion seating can improve healing. Where patient room space is critical a versatile seating system like the Marvel #2040 featured here can answer many needs. This *marvelous* chair both swivels (360 degrees) and rocks fore and aft on a concealed tension mechanism. Flip the safety latch on one side and it becomes a full recliner for all sizes. Flip the safety latch on the other side and it locks the rocking mechanism for ease of access and egress.
