Milano

Designer: W. Howard Pratt

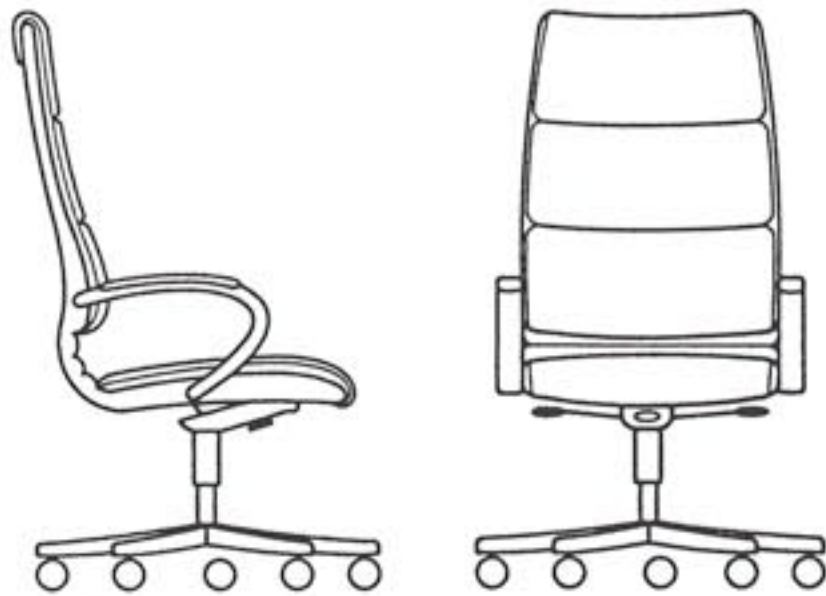

The Milano chair is expressly designed for the American shaped body by Mr. Howard Pratt, a former ergonomic specialist for IBM. It is manufactured at EOC's USA facilities and focuses on comfort and extraordinary support.

Milano's custom molded one-piece, body contoured inner hardwood shell provides superb lower back support in the critical lumbar area. Choose from medium (38"-42") or high back (47"-51") models.

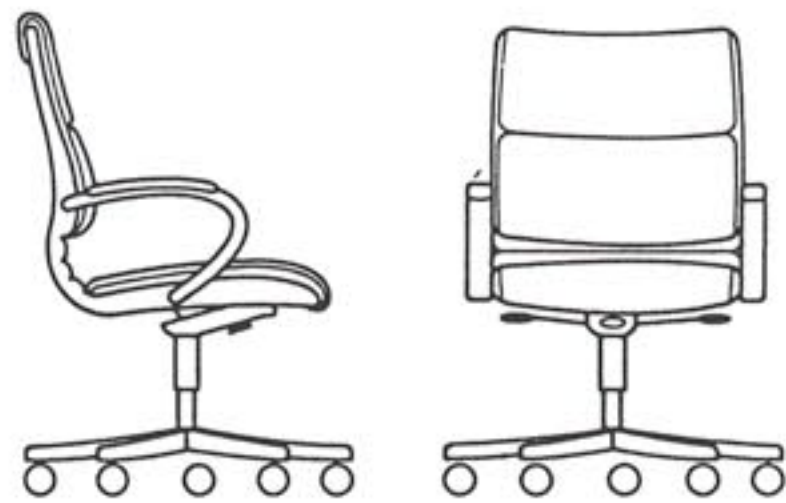

A special pillow seat and back cushion construction using Dacron wrapped multi-density foam provides long hours of

exceptional sitting comfort. The highly tailored upholstery, padded outside back and intricately wrapped arm inserts make it clear this is no ordinary chair.

Milano's motion system incorporates a natural flex action built into the one piece shell unit. The special knee-tilt mechanism offers tension and tilt control, pneumatic lift and a balanced recline feel. Choose from reinforced black urethane or hardwood arms and bases. EOC's natural leather, Madrid or Barcelona upholstery is recommended, to attain the tailored look shown.

988 High Back Knee Tilt Chair
47"-51"H, 25.5"W, 25"D

986 Knee Tilt chair
38"-42"H, 25.5"W, 25"D
