REGGIE

Designed by: Charles Gibilterra

Introducing the new Reggie Modular Platform Seating System.

An innovative multiple seating collection for places where people gather:

- Infinite ganging and re-arrangement capability.
- Field replaceable components.
- High resilient molded foam seats and backs.
- Steel beam suspended platform construction.
- Removable and re-locatable arms.
- Replaceable soft urethane arm pads.
- Easy clean-out alley way.
- 800 lbs. per seat load capacity.
- Matching benches and tables.
- Choice of powder coated metal finishes.

Designed for lobbies, reception areas, waiting rooms, hospitals, public buildings, airports and other places people gather.
