

# Executive Suites™

## QUALITY CONSTRUCTION SPECIFICATIONS

### **MATERIAL & WORKMANSHIP:**

The specifications contained herein are in compliance with current ANSI/BIFMA Standards for desk products. All exposed hardwoods and veneers are plain-sliced. Veneer matching is "A" quality with no knots, objectionable grain distortion or burrows exhibited. Each veneered surface is flitch matched, using book and slip matching principles. The front modesty panels, pedestals, return panels and cabinets all have vertical grain direction. All wood veneer panels are a balanced multi ply construction with a solid wood core. Tops are hot pressed for added resistance and strength.

### **LAMINATE CABINET OPTION:**

Cabinetry is also available in a thermal fused laminate finish that is highly resistant to scuffs, stains and abrasion. It is available in both wood grain and solid colors (see finish chart). The solid colors can be used in combination with wood veneer drawer and/or door fronts or work surfaces.

### **WIRE MANAGEMENT:**

Removable interior facia covers allow access to wiring and hardware connections. Storage cabinets and risers have power access slots installed in the back when curio and halogen lamps are specified.

### **WORK SURFACES:**

Tops are 1-5/8" thick and are available in a choice hardwood edge detailings. They are field replaceable and can be specified in matching wood veneer or high pressure laminate. Both are applied with a seamless fit with the hardwood edge.

### **PEDESTALS AND LOCKS:**

All cabinets and pedestals are standard in either 18" or 36" widths. They are fully finished on all sides, including the back. The pedestal's vertical walls are of 3/4" thick solid core construction with wood veneer or

thermal fused laminate on all exposed surfaces. All drawer pedestals are field replaceable and/or interchangeable by use of a powered Phillips bit screw driver. All desk file pedestals are equipped with a locking mechanism with a field replaceable locking core. Pedestals are enclosed at the bottom with 3/4" thick dust protector panels.

### **DRAWERS AND FILING:**

All box and file drawers employ EOC's French dovetailed construction using 7/16" thick drawer sides and backs. This provides more storage space (than a 5 sided drawer) and prevents the drawer heads from accidentally coming off. The drawer bottoms are groove fitted into the sides and back and secured on the underside by a hot melt glue. A 7/16" thick 2 1/2" wide wood cross brace reinforces the underside of all box and file drawer bottoms in the main desk pedestals. The top edges of all drawer sides are slightly radiused. The drawer interiors are solid wood with a maple grained finish.

The drawer fronts are of three ply construction. The top and sides of the drawer face are banded in a matching material and finish. All corners and edges are filed and sanded to eliminate sharp corners or snags.

Drawers are standard equipped with metal pulls in a black plated finish. Other drawer pull styles and finishes are available as shown.

All file drawers operate on full ball-bearing progressive heavy duty suspension, captive metal slides. Box drawers are equipped with full suspension captive metal slides. All drawer slides carry a lifetime replacement warranty.

Desk, return and credenza file drawers are equipped with a file folder frame system that adapts for both letter and legal size file folders.

### **CENTER DRAWERS:**

The center drawers are a thin profile design (approximately 2" high) in order to allow for ample knee space under the work surface. They have a special solid hardwood finger grip facia detailing and pencil tray. Center drawers operate on roller action captive metal slides.

### **MODESTY PANELS:**

All modesty panels are 3/4" thick solid wood core three ply construction. The wood veneer or thermal fused laminate grain direction runs vertically. The modesty panel is mounted in such a way so as to be field replaceable with a powered Phillips bit screw driver.

### **CABINETS:**

Wood cabinets have fully finished "A" grade sequence matched veneers on the interior and exterior sides. Laminate cabinets have fully finished interior and exterior sides. All outside backs are finished. The overhead cabinets can be suspended between cabinets of equal height. All base units have adjustable glides for leveling on uneven floor surfaces.

### **WOOD FINISHES:**

EOC's precatalyzed conversion varnish is a multi-step process using the latest technology. It provides advanced stain and mark resistance, easy maintenance and lasting beauty. Stains are hand rubbed (not sprayed) to maximize the wood's beautiful burls and cathedrals. A sealer is applied under all work surfaces to provide a moisture barrier. Veneers and hardwoods are selected, graded, flitch matched and applied to maximize the characteristics and beauty of the natural wood grain. All finishes are in strict compliance with OSHA and AQMD requirements.

## Executive Suites™

**The Executive Suites** collection takes modular casegoods systems to the next level. It is a complete, fully coordinated desk, seating, conference and reception room furniture collection that is regularly updated with the latest in designer options and accessories.

**Its unique features include** specially shaped floating wood and glass work surfaces on a choice of solid hardwood or polished metal risers. Overhead bridge cabinets freely suspended between storage towers and/or station supports. Fully modular components allow for easy field re-configuration and concealed power passage ways provide for the user's power needs.

**The cast of coordinates** include leather, glass, wood and laminate enhancements that combine to create an endless parade of design options. Executive Suites' main cabinetry and surfaces are engineered on 6" width and depth modules for coordinated planning and installation. Custom sizes and shapes are an important available option.

**Quality construction includes** fully finished cabinet interiors/exterior, French dovetailed wooden drawer sides, reinforced drawer bottoms and lifetime guaranteed full suspension drawer slides.

**Note:** Executive Suites is available on GIZA. See the Seating/Tables price list for matching furniture.

## FINISH AND EDGE DETAIL OPTIONS

The Executive Suites collections are designed to provide a wide choice of finish combinations ranging from transitional to very contemporary. The dual price columns provide for either laminate casework with wood door and drawer fronts ("Lam/Wood"), or wood veneer cabinet construction ("Wood"). In both cases either natural wood veneer, high pressure laminate or plate glass work surfaces can be specified. Wood and laminate surfaces are available with a choice of solid hardwood or self edge details.

Lam/Wood    Wood

### LAMINATE/WOOD FINISH COMBINATION

EOC's thermal fused laminate cabinetry is very durable and guaranteed against cracking, chipping or delaminating. The standard finish options are a wide choice of solid colors complimentary to the natural wood veneers and hardwoods.

Cabinet shells, panels and bases are available in a choice of solid color laminate cabinet finishes. Doors, drawer fronts and glass door frames are in a choice of wood veneers and hardwoods. Work surfaces are available in either wood veneer or high pressure laminate with a choice of edge detailing. Variations from this pricing theme can be requested. See page 19 for finish options.

### WORK SURFACE HARDWOOD EDGE DETAILS

#### The standard edge detail package:

Main work surfaces have the solid hardwood 2" x 1.5" thick "J" wedge detail on the approach side with the 1.5" wide "V" square edge detail on each end, as well as the back of secondary surfaces. The "J" detail is reversed (for a soft edge) on the occupant side of the main surfaces. The "V" detail is standard on all round, angled, "P" shaped and capsule shaped surfaces. When laminate tops are specified the "E" detail is provided in matching laminate.

J

E

V

#### The optional "F", "H", "M" or "Y" edge detailing:

These edge detailings are available at no additional charge. They are in solid matching hardwoods and appear on all sides of both the main and secondary work surfaces. These detailings can also be specified on round, angled, "P" shaped and capsule shaped work surfaces. All credenza and wall system backs have the square edge detail.

# FINISH AND DRAWER PULL INFORMATION

## WOOD FINISHES:

Except where indicated, conference table tops and bases are available in a choice of Walnut, Cherry and Maple hardwoods and veneers. They are hand sanded, sealed, stained, steel wooled and top coat finished. The following finishes are available in a standard satin finish:

#1 Walnut	13 Mahogany Walnut	18 Cherry Walnut	27 Pearwood
28 Mahogany	33 Natural Maple	40 Natural Cherry	41 Medium Cherry
46 Cranberry	47 Antique Cherry	49 Honey Cherry	100 Chocolate
101 Charcoal			

## FINISH AND WORK SURFACE OPTIONS:

The following is a list of available options and their applicable upcharges.

	Add to Finish #	Extra Charge
<b>LUSTER FINISH:</b> 50 degree luster lacquer finish. Tops are semi-pore filled.	Y	6%
<b>FULL-FILLED LUSTER FINISH:</b> Same as above with a 50 degree full pore filled, hand burnished top.	FY	12%
<b>DECORATIVE TRIM FINISH:</b> Contrasting hardwood moldings in any standard finish.	DT	15%

**NOTICE – GLASS TOPS**

We do not recommend placing glass tops directly on large table surfaces due to the natural undulations and irregularities of wood. Special preparations are required and are subject to extra charges (please inquire).

## DECORATIVE WOOD VENEER INLAYS

The following decorative wood veneers are available as a table surface inlay. To best exhibit their natural beauty these veneers are not stained, unless otherwise specified. They are full filled and polished to a luster finish. Add \$37 list per square foot (rounded) of surface area to the product list price and specify:

#BIY Birds Eye Maple	#FIY Figured Maple	#SIY Sapeli Pommele	#ZIY Zebra Wood
----------------------	--------------------	---------------------	-----------------

## SPECIAL WOOD FINISHES:

EOC will perform custom wood finish work on a project basis providing it falls within our scope and production capabilities. The minimum charge for providing customer finish test panels is \$278 net, which defrays costs for special handling, color chemistry and special finish boards. There may also be a production surcharge, depending on the complexity of the finish and size of order.

## LAMINATE SURFACE FINISHES:

The following laminates are available on table surfaces at no extra charge:

#14 Black	#44 Haze	#48 Fashion Grey	#57 Honey Cherry	#58 Charcoal
#60 Walnut	#61 Victorian Cherry	#63 Natural Maple	#66 Mahogany	#70 Pearwood
#89 Cocoa Leather	#75 White Nebula	#78 Grey Nebula	#87 Camel Leather	#88 Saddle Leather
	#90 Bayou Oxide	#91 Ebony Oxide		

## STONE LAMINATE SURFACE INLAYS:

These premium stone laminates are available as a decorative surface inlay at a 10% surcharge:

#53 Rosso Granite	#79 Black Star Granite	#86 Travertine
#55 Graphite Talc		

## LAMINATE CABINET FINISHES:

The following laminates are available on cabinets and bases where indicated:

#14 Black	#44 Haze	#48 Fashion Grey	#57 Honey Cherry	#58 Charcoal
#17 White	#60 Walnut	#61 Victorian Cherry	#63 Natural Maple	#66 Mahogany
#70 Pearwood				

## DRAWER PULL OPTIONS:

Unless specified otherwise, all furniture will be provided with the standard silver finished die cast #E1 drawer pull. The following pulls are at no additional charge when specified:

**Standard Pull:**  
#E1 Silver

#VP Satin Black

#TB Bright Brass

#B1 Silver

#A1 Satin Chrome

# Metal and Glass Support Elements
